TUG in eight questions

<i>What is the T_EX Users Group?</i>	The T _E X Users Group (TUG) is a non-profit organization devoted to development, support, and advocacy of T _E X, L ^A T _E X, and associated software.
<i>But does T_EX need development, support and advocacy?</i>	Yes. Times change: publishers move from print to digital, PDF format becomes ubiquitous, there are new requirements for output. . . Due to the efforts of many T _E Xnicians T _E X has been meeting these challenges and remains a tool used by many people around the globe—after all these years and changes.
<i>Ok, but what do you do?</i>	We coordinate developers, fund those efforts for which volunteers are not available, organize conferences, publish a journal, support working groups, mailing lists, web sites and generally care about the future of T _E X.
<i>How can I help?</i>	If your involvement with T _E X is significant, please consider joining TUG. If you prefer, any size donation is gratefully accepted. If you can offer T _E Xnical help, see https://tug.org/help.html .
<i>But isn't T_EX free?</i>	T _E X is free. Most of our work is done by volunteers. Still, there is a need for funding, and so we ask for memberships and donations.
<i>So how much?</i>	Any donation is welcome (https://tug.org/donate.html). First-year memberships are \$20. For all rates and information: https://tug.org/join.html .
<i>Are there any benefits for members?</i>	Of course! The benefits include our flagship journal <i>TUGboat</i> , T _E X software DVDs, discounts on meeting fees, Lucida fonts and more. Also, new members in 2018 get a letterpress-printed postcard and participate in a lottery for a fine press book by Jerry Kelly and Martin Hutner, <i>A Century for the Century: Fine Printed Books from 1900 to 1999</i> .
<i>Where can I learn more?</i>	Please see https://tug.org !
